Full-stack developer with three internships behind me (a CNRS research lab, a non-profit and a government ministry), shipping products end to end: database, API, web and mobile interfaces, Docker deployment. I work with AI agents in a structured way (clear briefs, dependency checks, a security review after each module). Looking for a work-study contract for 2026-2027 (alternating one month at university, one month at the company) or remote development missions.

Technical skills

Backend : PHP / Laravel, Node.js / Express, Java / Spring Boot, Python, REST APIs, WebSocket (Socket.IO)

Frontend and mobile : Vue.js 3, Angular, TypeScript, JavaScript, HTML / CSS, Tailwind CSS, React Native / Expo

Data and DevOps : MySQL, PostgreSQL, MongoDB, Docker, Docker Compose, nginx, GitHub Actions

AI : Claude Code and multi-agent workflows, LLM API integration (Mistral), prompt design, AI-assisted code review

Design, 3D and games : Figma (incl. a custom plugin), Unity, 3ds Max, Godot 4

Methods : Git, GitHub, Postman, Agile / Scrum, UML

Experience

Full-Stack Developer Intern, FEMTO-ST (CNRS research lab), Mu-CAR project, Montbéliard, France — May 2026 to June 2026

- Built the web version of Mu-CAR, a carpooling and multimodal mobility platform (Vue.js 3, TypeScript)
- Interactive multimodal map (Leaflet, OpenStreetMap, OSRM) combining bus, train, carpooling, park-and-ride and bike
- Nova, a natural-language trip planner (Mistral API) that runs a turn-by-turn dialogue and resolves ambiguous places
- Real-time trip tracking over WebSocket through a Node.js / Express BFF, integrated with FastAPI matching and GTFS data
- Shared schedule module (front end and BFF) with a consistency test; Docker Compose and nginx
- Ran the Mu-CAR stand at the INOUIH festival (May 2026) for adults and children

Full-Stack and Mobile Developer Intern, Radio Amitié association, Grand-Charmont, France — Mar. 2026 to May 2026

- Cross-platform mobile app (React Native, Expo, TypeScript) with live audio streaming (expo-av, Icecast)
- Accessible interfaces (Expo Router, Reanimated), Android build delivered through EAS Build
- Figma mockups generated by a custom JavaScript plugin

Full-Stack Developer Intern, Ministry of Economy and Finance, Cotonou, Benin — Sept. 2022 to June 2023

- REST APIs (Java / Spring Boot, MVC) and Angular interfaces, tested with Postman
- Docker / PostgreSQL environment, Agile team with sprints and code reviews

Website and Digital Manager, EAH Bien-être NGO (remote) — Since 2026

- WordPress site: articles, media, categories; X and Facebook campaign (20 visuals, 4 articles in two months)

Selected projects

Castly, AI-assisted content platform (Laravel, MySQL, Mistral API), live at castly.alwaysdata.net — 2026, solo

- One idea becomes nine content formats (blog, LinkedIn, X, newsletter, video script, SEO), with calendar and approvals
- Figma mockups and clickable prototype before coding; deployed over SSH on alwaysdata

Beyond the Frame, VR museum visit (Unity, 3ds Max) — 2026, team lead of 3

- Realistic 3D worlds adapted from paintings, explored with a VR headset; control sheets approved before every long render

Other — 2025 to 2026

- BeninLifeStyle, open-world game in Godot 4 built with seven coordinated AI agents; Priority, narrative game (Ren'Py)
- AideSync (Node.js, PostgreSQL, bcrypt, Helmet), Leave Manager (Angular, Spring Boot), ShareMusic (Node.js, WebSocket)

Education

MSc (year 1) Information Technology, Multimedia Products and Services, Université Marie et Louis Pasteur — 2026 to 2027

BSc (L3) Computer Science, Multimedia Products and Services, Université Marie et Louis Pasteur — 2025 to 2026

Professional BSc Management Information Systems, University of Parakou, Benin — 2019 to 2022

Languages

French : native · English : B1, comfortable with technical documentation and written communication
